CART POSITIONER

CART POSITIONER

The Cart Positioner is an innovative solution designed to simplify the process of cleaning and rinsing carts. With this device, users no longer need to lift or tip carts manually, which can be strenuous and potentially hazardous. Instead, the Cart Positioner allows for easy and efficient cleaning by providing a platform where carts can be securely placed. By actuating a pneumatic lever, the cart can be elevated to the desired position, allowing for thorough cleaning and rinsing without the need for manual handling.

CLEANING & SANITIZING

This tool not only enhances safety but also promotes a sanitary cleaning process. The design ensures that carts can be thoroughly cleaned without the risk of contamination, making it ideal for environments where hygiene is paramount.

ADVANTAGES

The Cart Positioner offers a practical and effective solution for cart cleaning, combining safety, hygiene, and user-friendly operation. Its pneumatic system makes lifting and positioning carts effortless, while the sanitary design ensures a clean and contamination-free process. This tool is an excellent addition to any facility looking to improve its cleaning processes and enhance workplace safety.

STANDARD OPTIONS

- One or two carts at a time can be raised to facilitate cleaning of entire cart. (including the bottom)
- Water runs out in the up position, the carts are then lowered after rinsing, clean and undamaged
- Employees no longer have to wrestle with carts on wet, slippery floors
- Carts are no longer tipped over with flange touching floor to drain rinse water
- All units portable
- Air activated- No electrical required
- Compatible with 400lb and 600lb Vemag Carts
