MATERIAL HANDLING

COLUMN LOADER

COLUMN LOADER

The Column Loader is an innovative solution designed to enhance efficiency and safety in food processing environments. This equipment is specifically engineered to handle standard 400lb and 600lb VEMAG carts, offering a hygienic and ergonomically friendly method for dumping contents. Its design prioritizes the health and safety of operators by reducing manual lifting and handling, which can lead to strain or injury.

APPLICATION

One of the standout features of the Column Loader is its versatility in accommodating different container types. Recognizing that various sectors within the food industry have unique requirements, the loader can be customized with various container options upon request. This flexibility makes it an ideal choice

for a wide range of applications, from meat processing to bakery and dairy industries.

EFFICIENCY

The equipment's design adheres to strict hygiene standards essential in food processing. This ensures that the loader not only enhances operational efficiency but also contributes to maintaining the highest levels of product safety and quality. By integrating the Column Loader into their processes, food manufacturers can streamline their operations, reduce workplace injuries, and maintain compliance with industry regulations.

STANDARD OPTIONS

- 2" Diameter heavy-duty screw
- 3 h. p. brake motor
- Heavy-duty "lift yoke" with safety nut
- 2' x 3" diameter guide posts
- 3/16" thick column body
- Tapered loading track to assist cart positioning
- Right or left hand execution
- Standard discharge height up to 84" (using standard carts)
- 9'4" overall standard height (custom heights available)

ADDITIONAL OPTIONS

- Custom discharge chutes
- Tall design for dump heights over 85"
- Roller bed lift carriage
- Severe duty units also available for the bakery industry
- Side Loading

MODEL OPTIONS

Available as stationary or portable
